Weekly mortality table, foreign and insular cities	1597

PUBLIC HEALTH REPORTS.

UNITED STATES.

[Reports to the Surgeon-General, Public Health and Marine-Hospital Service.]

Reports from San Francisco, Cal.—Plague-prevention work at San Francisco, Oakland, and Point Richmond—Summary of work at Oakland from July 18 to October 3.

Passed Assistant Surgeon Blue reports, October 15 and 17:

Week ended October 17.

Last case of plague: Sickened, January 30, 1908.	
Sick inspected.....	14
Dead inspected.....	87
Premises inspected.....	16,001
Houses disinfected.....	121
Houses destroyed.....	2
Buildings condemned.....	16
<hr/>	
Rats found dead.....	222
Rats trapped.....	3,405
<hr/>	
Total rats taken.....	3,627
<hr/>	
Rats identified:	
Mus norvegicus.....	2,415
Mus rattus.....	71
Mus musculus.....	953
<hr/>	
Total.....	3,439
<hr/>	
Rats examined bacteriologically.....	2,233
Necropsies held.....	6
Poisons placed.....	144,117

OAKLAND, CAL.

July 18 to October 3.

Sick inspected.....	8
Dead inspected.....	296
Plague case found.....	1
Rats found dead.....	33
Rats trapped.....	774
Ships inspected.....	55
Certificates signed.....	52
Ships fumigated.....	12
Squirrels caught.....	15
Squirrels examined bacteriologically.....	6
Rats examined bacteriologically.....	764
Rats infected with bacillus pestis.....	0
Necropsies held.....	4
Diagnosis of plague made on necropsy (same case as recorded above under "dead inspected").....	1

Week ended October 10.

Dead inspected.....	38
Rats trapped.....	76
Rats examined bacteriologically.....	43
Squirrels caught.....	11
Squirrels examined bacteriologically.....	9
Ships inspected.....	2
Certificates signed.....	2

POINT RICHMOND, CAL.

Week ended October 10.

Sick inspected.....	3
Dead inspected.....	2
Premises inspected.....	524
Nuisances abated.....	27
Rats found dead.....	23
Rats trapped.....	58
Poisons placed.....	24,400

Squirrel fleas found on rats.

Passed Assistant Surgeon Fox reports, October 19, through Passed Assistant Surgeon Blue:

Two squirrel fleas, common to this locality, namely, 1 specimen of the *Ceratophyllus acutus* and 1 specimen of the *Hoplopsyllus anomalus*, have been found on rats here. This is particularly interesting on account of the recent demonstration of plague in ground squirrels. Professor Doane reports having found the *Hoplopsyllus anomalus* on rats at Stanford University.

Outgoing quarantine transactions.

Passed Assistant Surgeon Hobby reports:

Week ended October 10.

Vessels fumigated and certified.....	28
Vessels certified.....	53

Report from Seattle, Wash.—Plague-prevention work.

Passed Assistant Surgeon Glover reports, October 19:

Week ended October 17.

Date of finding of last plague rat.....	September 26, 1908
Rats received.....	1,310
Rats necropsied.....	1,039
Plague rats found.....	0
Plague-infected rats to date.....	21
Vessels inspected.....	16
Vessels fumigated.....	1

Reports from Miami, Fla.—Dengue fever present.

Acting Assistant Surgeon Jackson reports, October 10 and 17:

During the week ended October 10 there were 10 cases of dengue fever under treatment in Miami. Most of the cases were very mild.

Week ended October 17. Four cases of dengue under treatment in Miami.

FOREIGN AND INSULAR.

BARBADOS.

*Report from Bridgetown—Inspection and fumigation of vessels—
Period of quarantine detention for plague extended to 10 days—
Fatal case of yellow fever.*

Acting Assistant Surgeon Urquhart reports, October 10 and 13:
Week ended this date. Bills of health issued to 6 vessels. Of these, 3 were fumigated. Total number of passengers, 2; members of crew, 174.

Sanitary condition of vessels, cargoes, passengers, and crews, good. Sanitary condition of this port remains good, no quarantinable diseases being reported for the week for the port or island.

The period of detention for plague has been extended to 10 days.

October 10. A fatal case of yellow fever occurred October 10. The patient was a young man who came a few months ago from England.

BRITISH HONDURAS.

Report from Belize, fruit port.

Acting Assistant Surgeon Mengis reports:

Week ended October 15. Present officially estimated population, 10,000. General sanitary condition of this port and the surrounding country during the week, very good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
1908. Oct. 9	Ellis	New Orleans.....	38	11	5
10	Serrana	Boston.....	39	0	0

CHINA.

Report from Hongkong—Examination of emigrants for the Philippine Islands.

Acting Assistant Surgeon Hough reports, September 18:

Week ended August 29, 1908: Examined, 49; rejected, 28.

Week ended September 5: Examined, 52; rejected, 34.

Week ended September 12: Examined, 44; rejected, 25.

Rejections were all for trachoma.

COLOMBIA.

Report from Barranquilla—No restrictions on traffic between Barranquilla and Trinidad—Restrictions in force at La Guaira.

Consul Eberhardt reports, September 30:

The restrictions that have been enforced for several months past against the ports of Trinidad and La Guaira are now being modified or done away with entirely.

The steamship *Atrato*, of the Royal Mail Line, which called at Trinidad to discharge cargo and leave mail and passengers, but accepting neither cargo nor passengers, was given pratique here September 19, and the French steamship *La Normandie*, coming directly from La Guaira, was received here yesterday. The passengers were allowed to disembark without any medical examination and there was no disinfection of the vessel. No precautionary measures of any kind were taken.

No restrictions are placed upon the traffic between Trinidad and this port. In La Guaira, passengers before being permitted to embark for Barranquilla are required to obtain a certificate from the Colombian consul at that port to the effect that they have resided in that city continuously for at least ten days prior to sailing, the supposition being that they are free from any infection, as plague is believed to exist only at Caracas. There is no disinfection carried on either at La Guaira or Barranquilla.

COSTA RICA.

Reports from Limon, fruit port.

Acting Assistant Surgeon Goodman reports:

Week ended October 10. Estimated population, 6,000. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Oct. 4	Limon	Boston.....	44	0	0
5	Sibiria.....	New York	51	39	1
7	Heredia	New Orleans	85	2	30
8	Montevideo	Ponce, P. R.	123	17	71
9	Miami	New York.....	48	2	0

Three bills of health for Panaman ports were viséed; certificates issued to 20 passengers bound for Colon.

CUBA.

Report from Habana—Inspection and fumigation of vessels—Sanitary conditions—House and water-deposit inspection—Stegomyia calopus present.

Passed Assistant Surgeon Amessee reports, October 20:

Week ended October 17.

Vessels inspected.....	13
Bills of health issued.....	17
Members of crews of outgoing vessels inspected.....	754
Passengers of outgoing vessels inspected.....	332
Certificates of immunity to yellow fever issued.....	15
Certificates issued to passengers bound for southern ports.....	209
Vessels fumigated prior to sailing.....	4

Sanitary conditions in the city of Habana continue excellent.

The local chief of sanitation reports for the week 11,800 house inspections and the detection of 57 deposits containing mosquito larvæ. Of these, 31 were collections of the larvæ of *Stegomyia calopus*.

Report from Matanzas—Inspection and fumigation of vessels.

Acting Assistant Surgeon Nunez reports, October 19:

Week ended October 17. During this period 2 vessels, leaving this harbor for United States ports, were granted bills of health. One of these was fumigated.

No quarantinable diseases have been reported within this district.

Report from Santiago—Inspection and fumigation of vessels.

Acting Assistant Surgeon Infante reports, October 10:

Week ended October 10. Bills of health issued to 5 vessels bound for the United States. One vessel fumigated to kill mosquitoes. No quarantinable disease reported during this week.

ECUADOR.

Report from Guayaquil—Inspection and fumigation of vessels—Smallpox—Plague at Babahoyo—Sanitary measures ordered.

Assistant Surgeon Wightman reports, October 4, through Passed Assistant Surgeon Lloyd:

Week ended September 19. One steamship, with a personnel of 115 crew, 32 cabin and 25 steerage passengers, was fumigated and received bill of health.

Week ended September 26. Two steamships, with an aggregate personnel of 197 crew, 70 cabin and 61 steerage passengers, were fumigated and received bills of health.

During the week ended September 19, 1 death from smallpox occurred, and during the week ended September 26, 1 death from smallpox.

Plague has appeared in Babahoyo, a port on the Daule River, about 40 miles inland from Guayaquil. Four cases and 1 death have been reported. The special commission on sanitation has sent a medical officer with assistants to institute sanitary measures in the port.

GERMANY.

Report from Berlin—Status of cholera in Russia.

The following is received from Consul-General Thackara, under date of October 8:

According to a bulletin published in the official gazette of September 20, there have been registered since the beginning of this year's epidemic up to September 19, in the whole of the Russian Empire, 10,359 cases of cholera, with 4,633 deaths. Of these 4,633 deaths, 492 occurred in the city of St. Petersburg and its suburbs, and 9 elsewhere in the government district of St. Petersburg, including 5 deaths in the city of Schlüsselburg.

There were 459 deaths in the city of Rostov on the Don, and 796 deaths in other parts of the Don region; 727 in the government district of Astrakhan, including 350 in the city of the same name; 637 deaths in the government district of Saratov, including 355 in the city of Zarizyn; 276 in the government district of Samara; 255 in the government district of Nishni-Novgorod, including 174 in the city of the same name; 280 in the Ural territory; 199 in the Kuban territory; 54 in the government district of Kostroma; 46 in the government district of Tiflis, including 41 in the city of the same name; 46 in the government district of Kief, including 33 in the city of the same name; 45 in the district of Kasan; 48 in Baku; 22 in Kertsch-Yenikale; 34 in the government district of Ikaterinoslav, including 16 in the city of the same name; 33 in the government district of Jaroslav; 26 in the Government district of Poltava, including 20 in the city of Krementschug; 22 in the Syr Darja territory, including 14 in the city of Taschkend; 17 in the government district of Simbirsk; 13 in the Terek district, and 13 in Tambov, 12 in Perm, 10 in Voronesch, etc., and 4 in the city of Odessa.

HAWAII.

Report from Honolulu—Examination of rats for plague infection.

Passed Assistant Surgeon Currie, in charge of plague laboratory, reports, October 3, through Chief Quarantine Officer Cofer:

Week ended October 3.

Rats trapped in Honolulu.....	735
Rats found dead in Honolulu.....	5
Rats shot from trees in Honolulu.....	202
Total rats taken in Honolulu.....	942
Rats examined bacteriologically.....	769
Rats showing plague infection.....	0

CLASSIFICATION OF RATS SHOT FROM TREES.

Mus alexandrinus.....	129

Total classified.....	162

CLASSIFICATION OF RATS TRAPPED.

Mus rattus	151
Mus norvegicus	64
Mus alexandrinus	107
Mus musculus	416
Total classified	738
Average number of traps set daily	1,438

HONDURAS.

Report from Ceiba, fruit port—Stegomyia calopus abundant.

Acting Assistant Surgeon Jumel reports:

Week ended October 13. Present officially estimated population, 6,500. General sanitary condition of this port and the surrounding country during the week, bad.

Stegomyia calopus abundant.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
Oct. 8	Marietta di Giorgio.....	21	0	0	0
9	Alabama	18	0	0	0
9	Rosina	34	0	0	0
10	Bodo	16	0	0	0
13	Harald	19	0	0	0

NOTE.—All of the above-named vessels were fumigated with sulphur in accordance with service requirements.

Reports from Puerto Cortez, fruit port—Stegomyia calopus and Anopheles present.

Acting Assistant Surgeon Ames reports:

Week ended October 10. Present officially estimated population, about 2,400. General sanitary condition of this port and the surrounding country, excellent. *Stegomyia calopus* and *Anopheles* present.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Oct. 4	Helen	Mobile	22	3	0
5	Bodo	do	16	0	0
6	Ellis	New Orleans.....	38	3	0
7	Utstein	Mobile	15	6	0
10	Alabama	do	18	2	0

Temperature taken of all persons on board above-named vessels on day of sailing.

Examination for trachoma at San Pedro.

Doctor Ames further reports:

An examination of school children for trachoma was made at San Pedro, Honduras, September 25, by a medical commission under the personal supervision of the governor of the Department of Cortez. The examination showed 69 cases of trachoma among 192 children. The governor has since directed a general and thorough investigation to be made to ascertain the extent of the prevalence of the disease among the population, and whether trachoma exists only as an imported disease among the large Syrian population of San Pedro or is present among natives. The commission examined the cadets at the military academy, finding among the 48 cadets 4 fully developed cases of trachoma. These cases were natives of San Pedro and Choloma, a neighboring town. The examination is expected to result in an amendment to the immigration laws of the Republic of Honduras forbidding the landing of aliens suffering with trachoma.

ITALY.

Report from Naples—Inspection of vessels—Examination of emigrants—Smallpox in Naples—Smallpox in Italy.

Assistant Surgeon Wollenberg reports, October 12:

Vessels inspected at Naples and Palermo, week ended October 10.

SMALLPOX IN NAPLES.

During the week ended October 10, 4 cases of smallpox were reported at the health office of the city of Naples.

Smallpox in Italy.—Week ended October 4: Cases: S. Giovannia Teduccio (Naples) 1; Marsico Nuovo (Polenza) 1; Giffone, 19, Polislema (Reggio Calabria) 1.

JAPAN.

Report from Yokohama—Inspection of vessels—Plague in China—Cholera at Moji—Plague on island of Awaji, vicinity of Kobe.

Passed Assistant Surgeon Cumming reports, October 1:

Bills of health were issued during the week ended September 26 to 5 vessels having an aggregate personnel of 78 cabin passengers, 214 steerage passengers and 503 members of crew.

The crew of the steamship *Benvenue*, for Manila, were bathed, their effects disinfected, and the forecastle, etc., cleaned.

During the month ended September 30, 105 would-be emigrants were inspected, of whom 84 were passed, 71 of those passed being certified. One hundred and thirty-seven persons were bathed and 293 pieces of baggage disinfected.

There has been no quarantinable disease reported in this city. The authorities are very vigilant against the introduction of cholera from Moji, at which place there have been 70 cases, besides others in the neighborhood.

Plague is reported raging in Chang Shan, China, near Tientsin and Peking. This place is also near Ching Wang Tao, the great winter port of north China, whence vessels are now sailing to America.

A severe epidemic of plague is reported on the Island of Awaji, near Kobe. Forty-eight cases, all but 5 fatal, have already been reported.

Examination of emigrants.

Number of emigrants per steamship *Kaga Maru* examined October 2: For Seattle, rejected, 2; advised to wait, 5.

Per steamship *Siberia* October 2: For Honolulu, advised to wait, 3. Of these rejections and detentions all were for trachoma.

Reports from Kobe—Inspection of vessels—Plague—Cholera at Moji—Plague in vicinity of Kobe—Dysentery.

Acting Assistant Surgeon Slade reports, September 24 and 29:

During the week ended September 19 supplemental bills of health were granted to 2 steamships.

Fifty-three members of crews and 74 steerage passengers were inspected. Twenty-seven steerage passengers were bathed and disinfected and their effects were disinfected by steam. The number of pieces of baggage steamed was 77 and of bedding 60. Manifests were viséed for 36,684 pieces of freight, amounting to 3,406 tons.

Emigrants were examined as follows: Steamship *America-Maru* for Honolulu, passed 24, recommended for rejection, 12; steamship *America-Maru* for San Francisco, passed 3, recommended for rejection, 1.

The official returns of infectious diseases for the week show that there was reported in Kobe 1 death from plague.

Thirty-nine cases of cholera have been reported at Moji, 320 miles southwest of Kobe. As the water supply there is poor, the steamship companies concerned at Kobe have been warned by this office that their vessels should not be allowed to take on drinking water nor any other water unless absolutely necessary at that port.

During the week ended September 26, 1 supplemental bill of health and 2 original bills of health were issued.

Seventy members of crews and 1 steerage passenger were inspected. Fifty-seven members of crew were bathed and disinfected and their effects were disinfected by steam. The number of pieces of baggage steamed was 152. Manifests were viséed for 4,552 pieces of freight, amounting to 683 tons.

Five cases of plague during the last five weeks have broken out at the town of Nishinomiya, 15 miles east of Kobe, and at Yura on the island of Awaji, 35 miles south of Kobe, there were reported 46 cases of the same disease. The report is dated September 24. The outbreak began August 25.

Dysentery has assumed a serious form in Kobe recently. Twenty-two fresh cases appeared during the week ended September 19. Twenty-five cases are now under treatment.

Report from Nagasaki—Status of cholera at Moji and Wakamatsu.

The following is received from the Department of State, under date of October 21:

At Moji, from September 2 to 15, 33 cases and 11 deaths are reported; at Wakamatsu, from August 25 to September 15, 6 cases and 3 deaths are reported.

Rejection of emigrants.

Sanitary Inspector Bowie reports:

September 24. Number of emigrants per steamship *Siberia* recommended for rejection: For Honolulu, 6.

MEXICO.*Report from Progreso—Inspection and fumigation of vessels—Yellow fever in Merida.*

Acting Assistant Surgeon Harrison reports, October 17:

Period from October 9 to October 17. Vessels dispatched, 4; fumigated, 3; members of crews inspected, 178; passengers from this port inspected, 29.

A new case of yellow fever occurred at Merida October 15, the only case at that date. This gives an aggregate of 19 cases with 11 deaths in all since the appearance of yellow fever August 23 last.

Report from Tampico—Inspection and fumigation of vessels.

Acting Assistant Surgeon Stowe reports, October 14:

Week ended October 13.

Vessels inspected and passed	2
Bills of health issued	2
Members of crews of outgoing vessels inspected	53
Vessels fumigated prior to sailing	1

No cases of quarantinable diseases occurred.

Reports from Veracruz—Inspection and fumigation of vessels—Smallpox—Yellow fever—Mosquitoes.

Acting Assistant Surgeon Jacobs reports October 11 and 18:

Week ended October 10:

Total bills of health issued, 8; vessels inspected and fumigated, 4; vessels inspected, 4. Total members of crews inspected, 304; passengers, cabin 54, steerage 28.

Last case yellow fever was reported October 7. One case of smallpox was reported October 8 and another one October 9. Both cases were immediately isolated in the lazaretto; origin, Veracruz.

Week ended October 17.

Total bills of health issued 6, vessels fumigated and inspected 4, inspected 2. Total crews inspected 234; passengers, cabin 61, steerage 3.

General health conditions of Veracruz and surrounding country, fair.

Two cases of yellow fever occurred during the past week, reported October 12 and 13. Yellow fever status, to date; cases 22, deaths 11.

Mosquitoes are still plentiful.

Doctor Jacobs further reports:

October 27. One new case yellow fever reported last night.

NICARAGUA.

Report from Bluefields, fruit port—Few Stegomyia calopus present.

Acting Assistant Surgeon Layton reports:

Five days ended October 14. Present officially estimated population, 2,500. General sanitary condition of this port and the surrounding country during the week, good. Few mosquitos present; scarcely any *Stegomyia calopus*.

Bills of health issued to the following-named vessel:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Oct. 9	Imperator	New Orleans, La	20	4	0

Temperatures of all on board above-named vessel taken at hour of departure; all normal.

PERU.

Report from Callao—Inspection and fumigation of vessels—Status of plague in Peru—Plague at Iquique, Chile.

Acting Assistant Surgeon Gutierrez reports, September 28:

Two weeks ended September 26. During the week ended September 19 bills of health were issued to 4 vessels with an aggregate personnel of 284 members of crew, 83 cabin and 80 steerage passengers. Three of the vessels were fumigated. During the week ended September 26 there were no transactions.

The following is the latest report on plague in Peru received from the Director de Salubridad Publica:

Locality.	Cases Sept. 1.	New.	Recovered.	Died.	Remaining Sept. 21.
Lima (city)	18	22	17	8	14
Callao	1	2	1		2
Trujillo (city)	47	1	21	17	32
Trujillo (country)		22			
Chepen	3	5	1	2	5
Chiclayo		1		1	
Ferreñafe		7	2	3	2
Payta	2	2	2	1	1
Mollendo		4			4

One of the patients from Lima escaped from the hospital. Since last report 4 cases of plague have occurred in Callao; 1 of these died in hospital.

Plague in Salaverry has abated, but in the province of Trujillo the conditions are unchanged. In Lima and Callao the situation has not changed. Callao had 6 plague cases in June, 6 in July, 5 in August, and 5 in September to date. Reports from Lima show widespread infection.

Smallpox in Callao has ceased to occur among the soldiers. There were 11 cases at the hospital in Lima.

Bill of health reports plague in Chile as follows: Iquique, report dated September 21, 4 cases during the past two weeks and 6 cases in the lazaretto.

PHILIPPINE ISLANDS.

Reports from Manila—Status of cholera in Manila and the Provinces— Inspection of vessels—Smallpox on steamship Changsha.

Chief Quarantine Officer McClintic reports, September 8 and 17:

Week ended September 5. Twenty-two cases of cholera, with 19 deaths, were reported in Manila. The cholera situation in the city of Manila does not show much improvement when the number of cases reported is considered, yet the situation on the whole is better, and it is believed that the increased vigilance of the health inspectors has lessened the number of unreported cases, which, in turn, augments the number of cases certified as cholera on the daily reports of diseases.

During the past four weeks there has been a steady improvement in all the provinces except Iloilo and Ilocos Sur. There are nearly as many cases reported, but fewer infected towns, and the epidemic is rapidly being controlled. The spread of the disease has been greatly retarded during the last few weeks. The following is a list of the cholera cases and deaths reported as having occurred during the week in the provinces named:

Province.	Cases.	Deaths.
Rizal	18	14
Bulacan	64	43
Ilocos Sur	300	193
Misamis	101	24
Nueva Ecija	11	7
Pampanga	4	5
Tarlac	1	1
Pangasinan	12	8
Union	146	98
Iloilo	613	420
Total	1,270	808

Smallpox.—At the inspection of the British steamship *Changsha*, which arrived at the port of Manila on September 5, an advanced and well-marked case of smallpox was detected among the steerage passengers. The smallpox patient was removed to the San Lazaro Hospital at Manila, and the vessel was remanded to Mariveles, where the crew and passengers were vaccinated and the necessary disinfection was accomplished.

During the week consular bills of health were issued at the port of Manila as follows:

August 31 the British steamship *Ning Chow*, with 94 in the crew and 3 passengers, en route from Glasgow to Seattle and Tacoma, was granted a supplemental bill of health after the usual inspection of personnel and cargo. September 2 the British steamship *Sierra Blanca*, with 33 in the crew, en route from New York to Cebu and Iloilo, was granted a supplemental bill of health. September 4 the British steamship *Erroll*, with 45 in the crew and 2 passengers, en route from Yokohama to New York, was granted a supplemental bill of health, after the usual inspection of cargo and personnel.

Week ended September 12: Thirty-four cases of cholera with 30 deaths, and 4 cases of smallpox with 1 death, occurred in the city of Manila.

Provincial cholera.—The following is an unofficial list of the cases and deaths from cholera in the provinces of the Philippine Islands for the week:

Province.	Cases.	Deaths.
Rizal	33	21
Bulacan	58	45
Ilocos Sur	82	42
Misamis	1	
Pampanga	10	6
Pangasinan	8	4
Union	53	37
Iloilo	617	399
Laguna	2	2
Capiz	15	14
Antique	126	51
Negros Occidental	167	163
Total	1,172	774

During the week consular bills of health were issued at the port of Manila as follows:

September 6 the British steamship *Changsha*, with 73 in the crew and with 126 passengers, en route from Yokohama to Zamboanga, was granted a supplemental bill of health. The vessel was disinfected while in port on account of smallpox having occurred on board en route to Manila. The personnel were vaccinated and all precautions taken. September 9 the British steamship *Sungkiang*, with 68 in the crew and with 10 passengers, en route from Amoy to Cebu and Iloilo, was granted a supplemental bill of health. The members of the crew were bathed and the vessel was partially disinfected at the Mariveles quarantine station.

RUSSIA.

Report from Odessa—City free from cholera.

The following is received from the Department of State, under date of October 21:

Odessa is now free from cholera.

ST. LUCIA ISLAND.

Report from Castries—Sanitary conditions—Smallpox at Grenada, plague at Trinidad, and yellow fever at St. Vincent, West Indies.

Acting Assistant Surgeon Maylie reports, October 5:

Week ended October 3.

Sanitary condition of this port and vicinity good. No quarantinable diseases exist.

The following official reports have been received here:

Three new cases of smallpox at Grenada during the week ended September 26; 1 new case bubonic plague at Trinidad, September 28; 1 new case of yellow fever at St. Vincent October 4.

FOREIGN AND INSULAR STATISTICAL REPORTS OF COUNTRIES AND
CITIES—UNTABULATED.

AFRICA—Kimberley.—Month ended September 12, 1908. Estimated population, 54,141. Total number of deaths, 51.

Lourenço Marquez.—Month ended August 31, 1908. Estimated population, 10,000. Total number of deaths, 34.

CHINA—Kulangsu.—Month of September, 1908. Estimated population, 3,400. Total number of deaths, 14, including 10 from cholera.

DUTCH GUIANA—Paramaribo.—Month of September, 1908. Estimated population, 34,085. Total number of deaths, 113. No deaths from contagious diseases reported. Malarial fever prevalent.

EGYPT—Suez.—Month of September, 1908. Estimated population 19,786. Total number of deaths, 72.

FRANCE—Cherbourg.—Month of September, 1908. Estimated population, 43,948. Total number of deaths, 53, including enteric fever 1, scarlet fever 1, and 14 from tuberculosis.

Marseille.—Month of September, 1908. Estimated population, 517,498. Total number of deaths, 764, including diphtheria 4, enteric fever 55, measles 9, whooping cough 2, and 80 from tuberculosis.

St. Etienne.—Two weeks ended September 30, 1908. Estimated population, 150,000. Total number of deaths, 88, including enteric fever 1, and 16 from tuberculosis. Cases: Enteric fever 7.

GREAT BRITAIN—England and Wales.—The deaths registered in 76 great towns in England and Wales during the week ended October 3, 1908, correspond to an annual rate of 13.3 per 1,000 population, which is estimated at 16,234,952.

London.—One thousand one hundred and twenty-five deaths were registered during the week, including measles 8, scarlet fever 11, diphtheria 8, enteric fever 9, whooping cough 7, tuberculosis 108, and 81 from diarrhea. The deaths from all causes correspond to an annual rate of 13.3 per 1,000. In Greater London 1,587 deaths were registered. In the "outer ring" the deaths included 1 from measles, 5 from diphtheria, 3 from whooping cough, and 17 from diarrhea.

Salford.—Week ended October 3, 1908. Estimated population, 239,294. Total number of deaths, 90, including scarlet fever 1, diarrhea 8, and whooping cough 2.

Ireland.—The average annual death rate represented by the deaths registered during the week ended October 3, 1908, in the 21 principal town districts of Ireland was 16.4 per 1,000 of the population, which is estimated at 1,131,959. The lowest rate was recorded in Waterford, viz, 3.9, and the highest in Newtownards, viz, 34.3 per 1,000.

Scotland.—The deaths registered in 8 principal towns during the week ended October 3, 1908, correspond to an annual rate of 13.4

per 1,000 of the population, which is estimated at 1,839,038. The highest rate of mortality was recorded in Edinburgh, viz, 15.2, and the lowest in Perth, viz, 3.0 per 1,000. The aggregate number of deaths registered from all causes was 474, including diphtheria 6, enteric fever 2, measles 2, scarlet fever 4, whooping cough 16, and 30 from diarrhea.

GREECE—Patras.—Month of September, 1908. Estimated population, 42,500. Total number of deaths, 28, including enteric fever 4, and 12 from tuberculosis.

HAWAII—Honolulu.—Month of September, 1908. Census population, 39,306. Total number of deaths 77, including enteric fever 4, diphtheria 1, and 8 from tuberculosis.

SPAIN—Barcelona.—Ten days ended October 4, 1908. Estimated population, 600,000. Total number of deaths, 296, including diphtheria 1, enteric fever 14, smallpox 5, measles 1, whooping cough 5, and 22 from tuberculosis.

Gibraltar.—Two weeks ended October 4, 1908. Estimated population 26,830. Total number of deaths 100, including 1 from tuberculosis.

Madrid.—Month of September, 1908. Estimated population, 547,399. Total number of deaths, 914, including diphtheria 3, enteric fever 22, measles 16, scarlet fever 14, whooping cough 3, smallpox 2, and 126 from tuberculosis.

WEST INDIES—St. Thomas.—Two weeks ended October 2, 1908. Estimated population, 11,012. Total number of deaths, 12, including 1 from enteric fever.

Cholera, yellow fever, plague, and smallpox, from June 27 to October 30, 1908.

[Reports received by the Surgeon-General, Public Health and Marine-Hospital Service, from American consuls, through the Department of State, and from other sources.]

[For reports received from December 27, 1907, to June 26, 1908, see PUBLIC HEALTH REPORTS for June 26, 1908.]

[NOTE.—In accordance with custom, the tables of epidemic diseases are terminated semiannually and new tables begun.]
